New European project launched: INCOMAT network of biomaterial experts

- **Project acronym:** INCOMAT
- **Project full title:** Creating international cooperation teams of excellence in the field of emerging biomaterial surface research
- **Project objectives:** The project INCOMAT will act as an international platform for the exchange of good practices and experiences, for the establishment of a multidisciplinary expert teams of excellence and their extension by new research partners and organisations in the future, for the identification of cooperation opportunities, for joint activities and future R&D projects.
- **Project Coordinator-** THUERINGEN innovativ GmbH (Germany)
- **Duration of the project** - 2 years

www.ssa-incomat.com

Numbers of our organizations in the project

The project includes 15 partners;

9 of them from Third “INCO” Countries such as the New Independent States (Russia, Belarus, Georgia, Ukraine) and Western Balkans (Croatia, Serbia-Montenegro).

5 partners come from Central Europe (D, NL, UK) and one partner from US

Innovative Republican Unitary Enterprise
«Science & Technology Park «METOLIT»
at Belarusian National Technical University (BNTU) –
the project partner from Belarus

www.ssa-incomat.com

Overall objectives:

To obtain an comprehensive survey on the key resources in biomaterial research and industry in the involved 10 region including EU, Western Balkan Countries (WBC) and Newly Independent States (NIS)

To form and operate four multidisciplinary cooperation teams of excellence for emerging biomaterial surface technology:

Team 1: Bone Tissue Engineering

Team 2: Bioactive and biomimetic coatings for enhanced bone contacts

Team 3: In-vitro/in-vivo testing to predict osteointegration

Team 4: Quality assurance and certification of medical products

To identify RTD strategies for future joint research

To select five high-level RTD projects for later submission in suitable RTD programmes

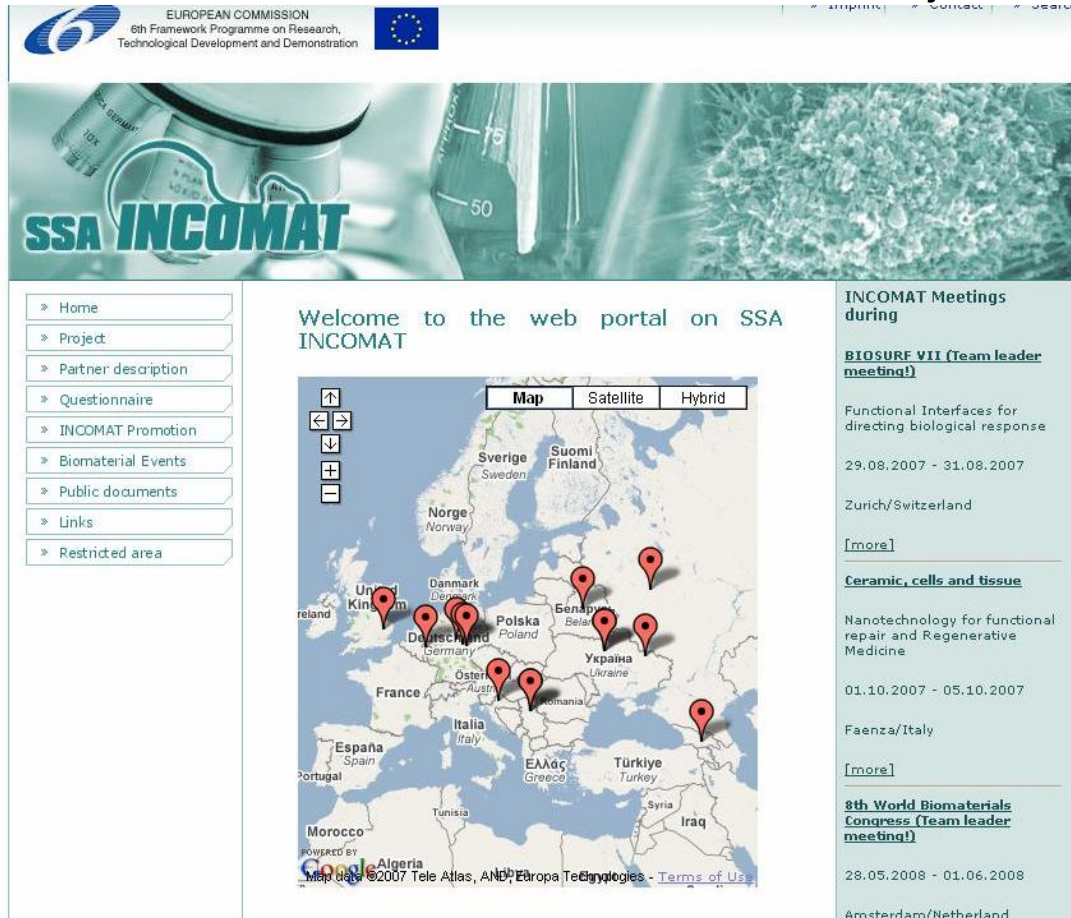

Possibilities offered by INCOMAT Project

- access to scientific research groups in Europe as well as to international trends, strategies and R&D activities
- establishment as eligible partners for international multidisciplinary research
- introduction/improvement of technology transfer activities and the development of related innovation strategies
- **the identification of cooperation opportunities, development of joint activities and future R&D projects for later submission in suitable RTD programmes**

The screenshot shows the SSA INCOMAT web portal. At the top, it features the European Commission logo and the text "EUROPEAN COMMISSION 6th Framework Programme on Research, Technological Development and Demonstration". Below this is a banner image with a microscope and laboratory glassware, and the text "SSA INCOMAT".

On the left side, there is a navigation menu with the following items:

- » Home
- » Project
- » Partner description
- » Questionnaire
- » INCOMAT Promotion
- » Biomaterial Events
- » Public documents
- » Links
- » Restricted area

The main content area is titled "Welcome to the web portal on SSA INCOMAT". It features a map of Europe with several red location pins. The map includes a legend with "Map", "Satellite", and "Hybrid" options. Below the map, there is a list of "INCOMAT Meetings during":

- BIOSURF VII (Team leader meeting!)**
Functional Interfaces for directing biological response
29.08.2007 - 31.08.2007
Zurich/Switzerland
[more]
- Ceramic, cells and tissue**
Nanotechnology for functional repair and Regenerative Medicine
01.10.2007 - 05.10.2007
Faenza/Italy
[more]
- 8th World Biomaterials Congress (Team leader meeting!)**
28.05.2008 - 01.06.2008
Amsterdam/Netherlands
